

WHIRLPOOL

ICE CUBE MAKERS

AGB 022

AGB 024

In a professional kitchen, high quality, reliable refrigerated products are of primary importance.

The Whirlpool professional range of ice makers, from the wide choice of finger ice cube makers to the cost competitive smaller range of squared ice cube makers, comply with the most stringent European safety and hygiene regulations for the use in the most demanding professional situations.

The squared ice cube maker range includes two models with either a 24 or a 40 Kg /24hr capacity. Both machines utilise the "hot wire" technology, an ice-forming process that eliminates the presence of air bubbles to obtain very clear ice cubes.

Storage capacity can be either 10 Kg (AGB022) or 20 Kg (AGB024) and the ice cube height can be adjusted to suit different applications.

TECHNICAL SPECIFICATIONS

AGB 022

- Dimensions: L555 x W535 x H590 mm
- Air condenser
- Capacity: 24Kg/24 hrs
- Storage Capacity: 10 Kg
- 1/5 hp hermetic compressor
- R134a gas
- 220 V single-phase

AGB 024

- Dimensions: L555 x W535 x H850 mm
- Air condenser
- Capacity: 40Kg/24 hrs
- Storage Capacity: 20 Kg
- 1/5 hp hermetic compressor
- R134a gas
- 220 V single-phase
